👤 Summary

Frontend-Focused Fullstack Developer specializing in React, Next.js, and modern JavaScript, with growing expertise in Node.js, Express.js, MongoDB (Mongoose), and Supabase. Passionate about building responsive, high-performance web applications with clean architecture, reusable components, and intuitive user experiences. Experienced integrating REST APIs, authentication systems, and third-party services to build scalable, production-ready applications.

🧠 Skills

Frontend Developer

- JavaScript (ES6+)
- React.js / Next.js
- TailwindCSS & Modern UI
- Framer Motion (Animations)
- Git / GitHub

Backend

- Node.js / Express.js
- Supabase
- MongoDB (Mongoose)

📁 Projects

Movue 🔗

Movue is a full-stack movie discovery platform built with React and Express, powered by the TMDB API and Gemini AI recommendations. It lets users explore trending, top-rated, and genre-based movies, view detailed information, watch trailers, and locate streaming providers. Utilizing **Supabase for secure user authentication and relational watchlist data management**, the platform delivers a highly personalized, secure, and modern movie browsing experience.

Freelancers Desk 🔗

Built a production-ready freelancer management dashboard with Next.js, Supabase, and Tailwind CSS. Implemented multi-user authentication, PostgreSQL database with Row Level Security, client and project management, task tracking, and an earnings analytics dashboard with interactive revenue charts. Deployed on Vercel.

Luxury Watch E-commerce Site 🔗

A modern frontend application engineered to simulate a luxury retail ecosystem. Designed and implemented an asynchronous mock API pipeline to populate the interface with product data, images, and price structures. Focused heavily on clean component architecture, responsive image handling, and strict data mapping to ensure reliable performance across all device viewports.

NeuraFlow 🔗

NeuraFlow is a modern AI SaaS landing page built with React, Tailwind CSS, and Framer Motion. It features smooth animations, a cinematic AI demo, and a dynamic dashboard preview, all designed to replicate a real-world product experience with a focus on performance and clean UI.

Professional Experience

Field Supervisor, Alphabet Multimedia

02/2022 – 01/2023 | FCT Abuja, Nigeria
